Comments: proposed day-use, overnight fees for 3 Oregon wilderness areas

Good morning

I'm writing to convey my disapproval of proposed fees for wilderness area use. To me, fees represent a crude method to affect limits to usage that would create a need for fee collection infrastructure which is anathema to the concept and enjoyment of wilderness.

Recently, the PCTA has been authorized to issue permits on a limited basis. Fees are not a mandatory part of that process, so it is possible to control use without a fee imposed..

I do not approve of fees being levied for use of wilderness areas by hikers.
