Comments: Permit system

I have been an avid hike for years. Here's my suggestion:

PLEASE DO NOT MAKE A PERMIT SYSTEM FOR THOSE AREAS THAT ARE NOT IN HEAVY USE. Yes, I can see a real reason for permitting South Sister Mountain and other popular areas being abused by too much human activity. But please do not place permits in other areas like Jefferson Wilderness. A great part of hiking is the spontaneity component.

Also, charging permit fees will have a negative impact on those with lesser means. Hiking should be available TO ALL.

Thank you.
