Comments: Central Cascades Wilderness permit fees

Hello,

I understand the need to limit access for the wilderness. However, daily fees for this many trailheads seems excessive. Couldn't you do fees for limited overnight permits (which have higher impact) and require daily permits that are free? This method is similar to the Enchantments Wilderness area in Washington State.

The parking fees should cover parking area costs. Most day hikers are doing shorter hikes and therefore don't have the same impact on campsites, etc.

Thanks and cheers,
