Dear Willamette National Forest,

The Forest Service should implement other, less restrictive management tools prior to implementing limited-entry day-use permits. Examples include educational programs focused on leave no trace practices, administrative signage, revegetation and restoration projects to address areas of concern, and installation of toilet facilities and/or wag bag stations to address human waste issues. The Forest Service should partner with County and State officials to address parking issues at trailheads. Managing and enforcing parking would self-limit the number of people on trail systems.

Sincerely,

Adam Orton
