Title:

Comments: Listen, our public lands must be preserved. The amount of damage to access areas for drilling, mining, fracking, etc that I've witnessed in my home state of Wyoming have been devastating.

NO to old fossils fuels being used as a profitable excuse to destroy our public lands that are sacred and scarcer by the year.

NO to our land. Stay off our lands. Keep the trump agenda from destroying al. The GOP is allowing this?? Once accessed, there is no repair. Just no. I beg of you. No.
