Comments: I have been a counselor at the Mr. Graham church camp for 3 summers. I have loved every moment of time spent with the wonderful youth. Camp definitely has a lasting impact and is sometimes the only reason a teen doesn't commit suicide, or drop out of school, or give up. Sometimes, camp is the only place for them to go and feel valued and have friends. I know because I was one of those teens before I became a counselor. Ending the legacy of this camp has the potential to cause a chain reaction of devastation. We always make sure to take care of the camp and minimize our footprint there, so the natural habitat is not being harmed. Lives, however, are being changed for the better every single summer we meet. I hope you will renew the permit for the camp and keep this legacy alive.
