Title:

Comments: I have been using the Turkey Flat Cabin Area since I have been born. My extended family has used it for five generations. I feel that the Church Camp at Columbine should be used. The people now and in the future should have the right to enjoy the Graham Mountains. The environment has changed little in the 60 years that I have used the mountain except for wild fires. Plants, animals and humans have all flourished. Extreme environmentalists who want to close areas for future generations do not live in the area and do not use the mountain. People have not misused the Graham Mountains. Please allow the Church Camp to be allowed to operate and let our youth enjoy, renewing their mental and physical well being.
