Comments: I do plan to submit comments once I have studied the proposal in more depth. I do believe a meeting should be scheduled to ask questions, but the idea of having it in Big Creek is a hollow gesture in the letter announcing the EA & the comment period. The roads are all closed to conventional travel. A snowmobile ride into Big Creek is fun for some of us, but for most Big Creek home owners that is not something they can or should attempt. Also, expecting home owners to arrange air travel to Big Creek is also an unrealistic. A meeting in the Treasure Valley (Boise) would make more sense & needs to be done immediately. Depending on the timing of a Boise meeting the timing of the comment period may need to be extended.
