Comments: Our nation needs to protect our national parks and forests. The Tongass Forest deserves to be protected from Trump's efforts to sell off and make available our national lands for corporate greed. The idea that you would open up this pristine natural habitat to clear cutting or any other plan to mar our national forests or parks is appalling. Please do not allow Trump to ruin what little natural habitat we have left in this nation. This land belongs to the citizens and should be protected from all attempts to allow corporate greed to damage our national land heritage. I would think that changing the Roadless Ruling for the Tongass Forest would be quite upsetting and unsavory to the native peoples of the area also . . . .
