Comments: Wayne National Forest Plan Revision

I would like to provide input regarding the horse trails in Wayne National Forest. I have been using these trails since 2014 and have to say that they are the best maintained horse trails I have seen and used in all the 15 states I have ridden my horses in. I live 4 hours north of Pedro but I prefer to travel here to do most of my trail riding. I recommend this area and especially Elkins Creek Horse Camp to every horse person I meet. The dedication of the owners of Elkins Creek and all the trail maintenance volunteers is amazing! If you would like to hear more from me on this subject, please don't hesitate to contact me.
