Comments: Tongass

To Whom it May Concern, I am appalled and extremely concerned with the continuous unchecked greed that is killing our planet at this moment. Everything does not have a PRICE TAG! The amount of good that an intact Tongass does for the health of our planet can not be measured or monetized. This short sited plan is reckless at the least and catastrophic at the most. We need all the help we can to suck up all the carbon we are spewing and Tongass helps with that. Please do not thoughtlessly approve this disastrous plan. We need all the untouched places we have left to help our home this planet. Thank You, Kathleen Roy Florida,U.S.A.
