Comments: keeping Tongass roadless

Dear Department,

Although I've never visited Alaska, I know of its beauty and potential riches. I live in Minnesota and am familiar with the beauty of our roadless areas.

I am totally against opening the Tongass with roads. It already has been timber scalped. Imagine with roads the real estate possibilities, etc., would wreak havoc with its natural habitat and ecology.

Please keep these wildernesses closed!

Thank you.

Sharon Chmielarz
