Comments: Logging in the Tongass Forest in Alaska

To whom it may concern,

My vote is for all of humanity...not the few who might benefit financially. Please don't start building roads or start logging in the Tongass National Forest or any other protected forest.

Hands off Trump!... same with the old cronies who support him! They are all beyond disgusting and are sub-human trash who truly don't give a rip about people or the environment.

Again, for what it's worth, I vote to keep the forest as it is. I vote no for developing and logging in the Tongass National Forest or in any protected area in the US.

Thanks,

Jane Donahue
