Comments: Tonagrass Road Options

Dear Sirs , I believe Option 1 is the only option available we wouldn't be having this conversation if it wasn't for a renegade administration in the White House no one wants the roads except die hard Republicans which makes the whole situation a political onewhich isnt a option when dealing with the future conditions of the lands promised to our children...,to constantly steal the resources of the future generation is wrong and shouldn't be allowed we as Americans are better than that - RR Mier
