Comments: Tongass Forest

My name is Lynessa Patterson. I am a student at Fairport High School, NY, and I am writing in regards to the exemption of the Tongass Forest from the Roadless Rule proposed by President Trump. I would like to express my support for Alternative One, stating that no action will be taken and that all of Alaska, including the entirety of the Tongass Forest, will remain under the protection of the Roadless Rule. Any other option would lead to lifelong consequences that our world cannot afford to pay, as we are already facing a horrifying environmental crisis. Thank you for your consideration.
