Comments: Protect Tongass

I'm a animal lover and I guess you might call me a tree hugger too. But, I understand the need to develop areas for resources, but Tongass is special and should remain untouched. It's a safe haven for countless species of wildlife and is home to a rare wolf as well. Please leave this area alone for future generations of animals to thrive and live in.

Please select Alternative 1, the "no-action" alternative.

Thank you,

Chistine Hein
