Comments: Maintain protections for Alaska Roadless Rule

Dear Secretary Secretary Perdue,

It is on behalf of everyone who has never seen the beauty of SE Alaska that I ask you to help protect the Tongass forest. It should be embarrassing to you that I even have to ask you to protect this natural wonder. Please, save this pristine land.

The Tongass, America's largest national forest, stores more carbon than any other national forest. It contains some of the planet's last stands of old growth temperate rainforest, which is critical habitat for deer, brown bears, black bears, all five species of wild Alaska salmon, wolves, and many of the other species of wildlife.

I urge you in the strongest terms possible to select Alternative 1, or "No Action," for USFS Docket ID: FS-2019-0023 Alaska Roadless Rule #54511. Keep the roadless areas of the Tongass National Forest protected and working to provide clean air, clean water, and sustainable resources to America and the rest of the world.

Sincerely,

Sincerely,

Mr Chris Jander

Holland, MI 49423-4227
