First name: Sherry

Last name: Mieling

Organization:

Title:

Comments: Roadless rule

To whom it may concern

* Alternative 1 takes no action and would leave all of Alaska under the 2001 Roadless Rule, including the Tongass National Forest.

This is by far and away the best action to take for people for plants and for wild animals and necessary communities.

Please do the right thing and keep roads out of the last remaining wild places. You know that this is the right thing to do and that wild places are under attack by corporate interests.

Best regards and hoping that you will do the honorable thing.
