Comments: Maintain protections for Alaska Roadless Rule

Dear Secretary Secretary Perdue,

I fish in the Tongass and it is the most beautiful place in the world. The biodiversity is a treasure, and the fact that there is no roads makes it a paradise. Trump has no idea what it's like, he's never been outside the city. He shouldn't decide what happens to this wildlife wonderland. The King Salmon are already almost extinct in the area. We can't afford to lose it. We really can't. RIP to the fish, bears, eagles, whales, dolphins, otters, jellyfish, and sea lions that I made friends with.

I urge you in the strongest terms possible to select Alternative 1, or "No Action," for USFS Docket ID: FS-2019-0023 Alaska Roadless Rule #54511. Keep the roadless areas of the Tongass National Forest protected and working to provide clean air, clean water, and sustainable resources to America and the rest of the world.

Sincerely,

Sincerely,

Mr. Kody Carleton
