Comments: Keep the Roadless Rule in Place for the Tongass National Forest

Dear Interdisciplinary Team Leader, Alaska Roadless Rule Ken Tu,

Please keep the current protection of the Tongass National Forest and its backcountry and roadless areas from logging and development.

The Tongass is one of the last big forest preserves in our country, and it is our responsibility to protect it for future generations. It is not only a place for outdoor recreation in the region, it also provides clean water, clean air, and wildlife habitat, all of which are foundational to the economic and ecological health of Southeast Alaska. A roadless area that large helps fight climate change, and it is now more important than ever to keep it that way. Road building, logging, and development should continue to be prohibited in the Tongass's roadless areas through upholding the Roadless Rule.

Thank you for keeping it that way.

Sincerely,

Christine Wolf

Seattle, WA 98101
