Title:

Comments: Tongass - Roadless Act

To Whom it may concern:

I am requesting for those in power to make a ruling to decide if the Tongass need to have the Roadless Act removed consider today, tomorrow and generations to come. If we continue to jeopardize natural resources in the name of capitalism, shame on us!

Please do your due diligence to research the long lasting impact of overturning this act to log the Tongass. Let's preserve nature and allow North America and opportunity to recover from the damage done by large corporations over the last 30&#43; years.

Karmela Rotter

Citizen of US and lover of nature

Director, Customer Excellence of a junk removal company
