Comments: Tongass Comment

Hello,

I am writing to submit comment on the draft environment impact statement regarding Tongass National Forest in Alaska. I support Alternative 1, to take no action and leave all of Alaska under the 2001 Roadless Rule, Including Tongass National Forest.

As an avid hiker, I find it appalling to see that Tongass has come onto the chopping block. It is a treasure, a lush, beautiful rainforest filled with mossy trees and rare animals, a place where you can breathe in pure air and enjoy the cathedral of nature. I believe that such a rare wilderness should be protected at all costs. No amount of money is worth its destruction.

Sincerely,

Melissa Lester
