Comments: Logging National Forests

Dear White House,

As a citizen of the U.S. and the world, I am strongly against the logging of the Tongass National Forest for the sake of our future. This will destroy a valuable carbon sink resource that we desperately need at this time for the planet, not to mention the as well-being of the eco-system surrounding the area. Every destructive action creates a domino effect on our climate. PLEASE consider the consequences of your actions!

Sincerely,

Linda S. Deming,

Asheville, NC
