Comments: Maintain roadless designation

Please maintain roadless designation for the Tongass National Forest. We need old growth forests NOW MORE THAN EVER, to counter the effects of apocalyptic climate change. Harvesting trees for little profit strips the lungs out of the earth. I find it preposterous that train foresters are even considering this legislation. It has been proven that large trees rather than newly plwanted trees take up more CO2. With the fires in the Amazon we need intact protected forests of the Tongass for our planets continuity. Do you all want the glaciers and ice caps to melt?. PLEASE KEEP THE TONGASS ROADLESS!!!!

Ellen Americus
