Comments: I am in support of all 4 of the newly proposed trails. Pandapas has been underserved for a decade if not for longer. The trails are congested with the growing population and popularity of the trail system and should be expanded. These proposed trails have been well thought out and I am excited to help build and recreate them. I am also excited to hear that Beauty and Holiday may potentially be added to the trail system one day. Those are great trails and would be great additions to the trail system. I am excited to see the U.S. Forest service recognize the need for trails and to work with PCTC and the Town of Blacksburg to progress the trail systems in the area. I hope that the forest service will continue to share and use it's resources for new trail construction in the poverty creek trail system. These trails need to happen.
