First name: Karen

Last name: Parker

Organization:

Title:

Comments: Dear Forest Service - In consideration of the Alaska Roadless Rule #54511, I am distressed and disappointed at the relentless efforts of the Trump administration to exempt the Tongass from this vital protection. Our natural resources are finite, and deserve our unwavering devotion to their protection - those few that remain after many years of desecration for the profits of a few, to the detriment of many. Stop the shortsighted plan to destroy our largest remaining national forest - save the Tongass from destruction for the enrichment of big timber!

Hopefully, Karen Parker
