Title:

Comments: To whom it may concern,

I am writing this letter to express my COMPLETE disappointment and disagreement with Alaska's proposal to remove protections from 9 million acres of the Tongass forest, currently protected by the Roadless Rule. This forest is a NATIONAL gem, that garners thousands of visits annually, if you destroy it why would people go visit ? What would they marvel at? How can you remove Public owned land and give it to private investors? Whose interests are you serving? The senators and people elected into government are supposed to serve the PUBLIC, do not give this land up for logging, people, especially YOUNG people like me, millennials , are interested in visiting amazing places in our country. I urge you to maintain the largest national forest in the US as it is, do not open up to logging you would be HATED by a lot of people who will write you constantly because we will not stand for this kind of injustice. Do the right thing, Protect and conserve the Tongass forest.
