Comments: No on wilderness fees

You guys need to do a little more homework before fees are imposed on wilderness users. I understand you feel use needs to be limited in some high use areas but you haven't convinced me that the new revenue raised will actually benefit the wilderness. I'm afraid the money will only boost general admin budgets...not budgets for trail maintenance (which is woefully under funded) or user education. Show me how thses two objectives will be guaranteed and you've got a supporter.
