Title:

Comments: permits comments

Here are comments on the upcoming permit process;

- provide discounts for senior citizens or honor the senior pass
- provide sliding fee or discounts to underprivileged people by tapping into SNAP or one of the other services that require registration for low income people.
- provide scholarships or discounts for minority young people to try and encourage them to experience the outdoors more.
- devise some way to identify people who pollute or deface trails and natural resources and prevent them from using trails in the future.

Thanks for being proactive in taking these steps to protect our wilderness areas.
