Dear Sir:

I write to express strong objection to the USDA Forest Service Wilderness use fee proposal in direct violation of the Federal Land Recreation Enhancement Act.

By law the Forest Service can not levy fee's on citizens walking on public owned wildernesses.

Please consider setting daily visitor quotas' to control overuse issues. Cancel the illegal fee collection proposal mistake.

Please stop trying to commercialise wilderness in direct violation of the Wilderness Act of 1964.

Thank you for reading my letter and carrying out the above request. That is, obey the federal laws you took an oath to uphold. Cancel the fee proposal.

Sincerely,

James Woods
