Title:

Comments: Fee System and Volunteers

I would like to see volunteers who work a certain number of hours on or for trails in a calendar year exempted from the permit requirements.

This would include:

hours of administrative work for a volunteer trail organization

hours spent attending Trail Skills training

volunteer work both within and outside of wilderness areas

I believe that working an average of 10 hours/month for a total of 120 hours should be the minimum to get the exemption. This is based on my experience of a typical day being 10 hours if one includes travel time to and from the work setting.
