Comments: Wilderness Permit Fee

I don't think there should be a fee for the special permits. I think you should open up more trails similar to these && make parking areas for the new trails, so these few are no longer overused. I think campers should get a free pass for every day they are camping. A 6 month in advance reservation would help people plan ahead. Leave 5 permits for same day users.

How you gonna enforce all this... Seems to me if you just enforced current parking, they wouldn't be parked all along the highway... we wouldn't need any other limiting permits. "No parking spot=no entrance."

Thanks for the opportunity to give my input.
