Comments: Permit fees

We the people already pay for our National Forest.

Adding a fee to hike onto the forest or lands that we already own and pay taxes for is double taxation!

People walking into an area on a trail can't damage it.

If they leave trash then fine them! We already pay for Forest Service folks to patrol these areas, so still no need for additional fees.

If Forest Service and ODFW can't manage their funds then the managers are due for a reduction in pay.

I've been into the Sisters Wilderness many times, I've never seen it to crowded. And I've not seen trash anywhere other than a very small item or two. Nothing that warrants a fee for use.
