Comments: Proposed rec fee.

I strongly oppose any additional fee for using PUBLIC lands. In my opinion, this is just another bureaucratic intrusion into my wallet. I already spend, willingly, many dollars for camping in the many great campgrounds in this beautiful state. There are fees for boat usage, parking, licensing for pretty much everything. When does it stop? All I want to do is take a hike and see and experience nature and not have to BUY my way in. Keep your hands out of my and my family's pocket. Enough.
