First name: Robert

Last name: Lypka

Organization:

Title:

Comments: I am contacting you in regards to your petition to build roads around and through the Tongass National Forest for the purpose of extracting natural resources. If any past example of your blatant mismanagement ever showed that you had any respect for or interest in getting the American taxpayers a fair price for these resources, much less make a profit, then I might consider your request as something of substance. But since it's little more than a sham, being perpetrated for corporate gain without a shred of interest in preserving our parks and the resources to be used and enjoyed for future generations, then I must adamantly say, no. You give away everything your hands have ever touched while serving in your capacity with no regard to profit for the taxpayers much less cleanup and total restoration of the property. The Forest Service is a running joke when it comes to you overseeing it all on behalf of the American people. All of you involved in this decision making process should be in Guantanamo for an indeterminate period.

You are a collective disgrace to everything we hold dear. I don't consider the men and women who serve in our many facilities around the country as any part of this joke.
