Title:

Comments: Do not allow roads or logging in the Tongass National Forest! We are in the midst of a crisis, and it is more important than ever to protect the wild forests for years to come. Listen to the people and maintain the roadless rule. Keep public lands in public hands; we do not want logging in our forest. AS a citizen and biologist, I urge you to do the right thing and protect this wild area for its wildlife, beauty, recreation, and the myriad ecosystem services it provides to us. By allowing logging you will be remembered as the ones who destroyed a National treasure. By keeping the roadless rule intact, you will be known as someone who protected a priceless treasure, helping to save future generations. Keep the Tongass national forest free from roads and logging.
