Re: Tongass roadless rule [mdash] *Please* [text underlined for emphasis] No Change

My response to the porsed changes in the roadless rule was sadness and almost despair [mdash] I came to Alaska in *1956* [text underlined for emphasis] and it seems so short sighted that we are again hoping to revive an economy which has not worked for SE Alaska in the past i.e. short term reource destruction [mdash] logging of our best rees equaling real harm to our *truly* [text underlined for emphasis] renewal resources i.e. tourism + commerical fishing [mdash] it doesn't work for the longtime health of SE. or our future.

Please no change

Sincerely,

Amy Johnson
