Dear Honorable Sonny Perdue,

As a high school student, citizen of the United States, and visitor of the Tongass National Park, I, Natasha Yenm urge you to support the conservation alternative proposed by Trout Unlimited and the Sitka Conservation Society. The 2001 Alaska Roadless Rule is important in protecting natural habitat - which is also essential for the salmon fishing industry - and for conserving the beauty of Alaska, its residents, and the environment, as our future depends on the health of these forests.

Thank you,

Natasha Yen
