Dear Roadless Rule Planning Team,

The health of the Tongass National Forest is important to me. I depend on the Tongass which is a unique and global treasure.

The freshwater streams where salmon and old growth forest of the Tongass provide spawning habitat for these fish, which in turn feed a matrix of bears, birds, insects, and other wildlife that Alaska is so famous for. The health of our economy, which is heavily dependent on the fishing and tourism industries, also depends on the salmon, wildlife and presence of old growth forests. A sustainable future for Southeast Alaska requires protecting expansive areas of intact habitat - in short, it requires keeping our Roadless areas roadless! I urge the Forest Service and the Secretary to protect important salmon spawning habitat, maintain old growth forests for winter deer habitat, and keep the places I like to recreate free of clearcuts and roadbuilding.

WHO I AM: [text bolded for emphasis] Include your name, where you live, and any relevant biographical information. Do you live or work on the Tongass National Forest? What is your relationship to the Tongass?

Briana Agenbroad, Skagway, Alaska. I live and work in teh Juneau-Skagway icefield. I depend on this areas for harvesting and for my work as a hiking + backpacking guide.

PREFERRED ALTERNATIVE: [text bolded for emphasis] The Forest Service will choose how to proceed from a number of different alternatives. If you want the Roadless Rule to remain on the Tongass, write "No Action."

No Action

WHY I PREFER THIS ALTERNATIVE: [text bolded for emphasis] How would this alternative affect you and Southeast Alaskans?

This would descimate the areas in which I depend on for my livelihood, I demand that this area stay roadless to protect the prime bald eagleand salmon habitat that I depend on.

AREAS: [text bolded for emphasis] Are there specific islands, watersheds, or mountains that you depend on? Name the most important areas that the Roadless Rule to protect. Examples include the Tenakee Inlet, Nakwasina Sound, Fish Bay, Ushk Bay, Northern Prince of Wales, T77 salmon watershed areas, Audobon TNC ecological priority areas, etc.

Juenau-Skagway Icefield, sullivan, Chikat-w-lynn

USE: [text bolded for emphasis] What activities do you use the Tongass National Forest for? Hunting, fishing, recreation, subsistence, business, tourism, etc.

Subsistence activities, berry picking, mushroom harvesting. Camping, hiking, backpacking, Guiding

SUGGESTION: [text bolded for emphasis] How should the Forest Service manage the Tongass National Forest, rather than old-growth clearcut logging? More sustainable alternatives to timber harvest include salmon

watershed restoration, visitor industry infrastructure, deer habitat enhancement, young growth thinning, and maintenance of recreation infrastructure such as trails and cabins.

watershed restoration + primitive recreation

Additional comments for the Forest Service:

Sincerely,

Briana Agenbroad

I want to receive a copy of the Draft Environmental Statement
