Comments: affect on Old Growth Habitat Areas?

Will the Old Growth Habitat areas, such as the one on northeast Chichagof Is. Be maintained as roadless wildlife habitat areas, or might they possibly have roads and timber harvests? This is an area of concern to my community of Gustavus, and there will be a FS Roadless meeting and subsistence hearing in Gustavus on Dec. 5. So if possible can you answer my question before then?

Thank you, Judy Brakel
