Comments: Draft Environmental Impact Statement, Alternatives to a Proposed Alaska Roadless Rule

To whomever this may concern:

I am writing to provide public comment on the Draft Environmental Impact Statement, Alternatives to a Proposed Alaska Roadless Rule.

I am deeply opposed to any changes to the Roadless Rule, and believe protecting this National and World treasure is a critical component to the survival of our planet and the fight against global warming. I am deeply troubled that consideration is even being given to allowing the trees in this forest to be logged as these trees are a natural carbon sink and an important offset to the increasing carbon causing global warming and the increasing natural disasters and extreme weather events nationally and around the world.

I strongly support only "Alternative 1" which takes no action and leaves all of Alaska under the 2001 Roadless rule, including the Tongass National Forest.

With deep concern,

Christina
