Title:

Comments: destruction of world forest in alaska

we have a lawless, ignorant, arrogant administration that is doing EVERYTHING it can to benefit its donors - oil and gas companies primarily. this rainforest belongs to ALL OF US, benefits ALL OF US on the planet and they have NO RIGHT to arbitrarily destroy it for monetary gain.

climate deniers ALL. voters will have the last say but on many levels the environment is already past saving for the future generations.

please - make them STOP doing the opposite of what is moral and right...

pat
