First name: Sara

Last name: Martin

Organization:

Title:

Comments: Please retain all roadless designations and protections in all roadless areas. We must retain roadless designations to protect our natural resources. Removing and violating these rules/laws weakens environmental legislation and reduces the efficacy of the entire program. Without roadless areas to insure critical ecosystem services, all wild areas will suffer and humanity will deal with reduced environmental conditions. Reducing environmental integrity only leads to hardship for those dependent on those environments for subsistence and income. Thank you for your time.
