Comments: I support alternative one. Leave the forest alone. We, as Americans, have been given the greatest gift of any nation; our wonderful natural forest lands. It's the one thing Europeans envy of America. Why would we want to begin tearing that down? Leave the natural beauty of this forest for future generations to enjoy.

Please stop these organizations from building roads through this forest and logging these trees. Please stop them from damaging the rivers and overall ecosystem. We have put the protection of this natural habitat in your hands. I trust you'll do the right thing. Thank you for your time and consideration.

With respect,

M Neal Gibby
