Comments: Tongass needs this rule, Alaska needs this rule, the fragile and unique ecosystem that thrives within this forest needs this rule. If we let roads be built and trees cut we loose that sense of purpose to conserve and protect. Is Alaska loosing its mark as gods country and the last frontier? Has the damage done to Joshua Tree National Park during this government shut down not only show us how much we don't deserve this type access to such a beautiful place? There are far too many examples of the destructive nature of humans that i would rather not see Tongass become another on the list thank you very much!
