Last name: Doerner

Organization:

Title:

Comments: U.S. Forest Service and honorable members of Congress,

Please protect the Tongas. Do you value your children's and grandchildren's future quality of life? Do you value your own? We humans must stop being so greedy and living only to chase money and expanding economic growth. Please leave this irreplaceable forest alone. Do not pass the roadless exemption. Leave the Tongas intact so it can help mitigate the effects of Global Warming.

Thank you.

Mina Doerner
