Title:

Comments: Please do not turn one of America's last great forests, a one million year old pristine wilderness, into a a short-term commercial operation to produce toilet paper, toothpicks and cardboard boxes. My understanding is that this will produce maybe 100 jobs. That is minuscule in the big scheme of things. The forest in its current state is IRREPLACEABLE. Please use good judgement and preserve this incredible place for future generations. Thank you.
