First name: Brian

Last name: Steward

Organization:

Title:

Comments: I would like to voice my support for alternative 1, for the following reasons:

The old growth forest is a tremendous buffer against climate change

The forest is a critical part of keeping water clean. Fishing is a big part of the economy in SE Alaska.

Tourism is a big part of the Alaskan economy. How many will pay to go see clear-cut swatches of forest?

Do we really need to sacrifice this irreplaceable resource to sell wood to China?

Thank you for your consideration.
