First name: Roberto

Last name: Salas

Organization: Centro Artistico y Cultural Buens Vista

Title: Director

Comments: I teach in Alaska during the summer. It's my second home. I feel strong about protectting and preserving this area that is a very important eco system to the world.inlight of the current situation I urge the institutions, local and state governments to protect this area for our future..

As a native American it is our responsibility to protect our land and be firm on the correct methods of land use.
