Comments: I have lived in the tongass national forest for the past 45 years. My daughter and my grandchildren also live in the tongass. I strongly oppose lifting the roadless rules that are now in place. Roads will not help our environment. They will jeopardize our salmon runs. They will harm what little defenses we have in place to fight global warming. These roads will help big business get bigger and when they have destroyed the forest they will leave a mess. I strongly urge you to defend the tongass and keep the roadless laws intact.

sincerely your, peter o. mooney
